📂 PROJECTS

RF Pro CP
I experienced RF Pro CP, a revolutionary hospitality app on the Play Store 🔗 and Windows. Unified kitchen, cashier, and reception roles for real-time updates and streamlined transactions. Enhanced customer experiences through a user-friendly interface and customizable features.

RF Pro
The Baranh Restaurant Team's POS app is now on the Play Store 🔗 and App Store 🔗, streamlining restaurant operations and enhancing the customer experience with fast order-taking.

EFS Attend
Our facial recognition attendance system is now available on the Play Store 🔗 and App Store 🔗, offering fast, secure, and contactless attendance tracking.

Sehat Sahoolat
Experienced in developing a health service platform allowing patients to schedule virtual appointments and manage their EMR. Available on the Play Store 🔗 and the App Store 🔗.

Rollover
The Rollover Shopify app is now available on both the Play Store 🔗 and App Store 🔗, providing convenient access to diverse children's products.

ISL School
Created a mobile app for an ISL school, enabling seamless communication and management among teachers, students, principals, and front desk staff. Available on the Play Store 🔗 and the App Store 🔗.
